

Aknicare

Aknicare is a range of medical grade products imported from Italy available exclusively from SkinTECH.

Suitable skin type: All skin types.
Treats: Mild to Moderate acne.

Active ingredients:
Triethyl citrate, Ethyl Linoleate, GT-peptide-10, Salicylic acid and Zinc work together as an anti-inflammatory and anti-bacterial.

Results:
Remove dead skin cells, targets excess oil production and reduces inflammation and redness of pimples.

Usage:
Twice daily. Once absorbed into the skin, sunscreen or make-up can be applied.

YOUR PRODUCTS

Cleanser 200ml

Works as an antiseptic with a purifying and soft exfoliating action.

Cream 50ml

A moisturiser with hydrating action which prevents skin dryness.

Lotion 25ml

A fast acting, concentrated liquid solution for spot treatment of acne. Can be applied on the skin before Aknicare cream.

Spray 100ml

A convenient oil-free fluid for other areas of the body such as chest, back and arms.

MediPatch

YOUR PRODUCTS

Box

Contains 36 sterile assorted patches

Suitable skin type: All skin types.

Treats: Mild to Moderate acne.

Active ingredient:

Hydrocolloid.

Results:

Helps reduce inflammation, redness, swelling and scarring.

How to use:

With clean hands, apply the patch onto the pimple. When the plaster turns white in colour it indicates absorption of the pimple and the plaster can be removed. Best to use on pimples that are ready to pop.

THANK YOU

Thank you for your order! We hope these products will treat and heal your skin, leaving you feeling confident and comfortable.

We'd love to hear how you're enjoying your products and the results you're seeing. You can leave a review on our website, Google or share on social media.
